

SR-45 ADVANCED

soilmec®
Drilling and Foundation Equipment

This is a great story.

This is the story of machines, of million of pieces, both big and small, put together by human effort and ingenuity. Great, powerful, efficient rigs for deep foundations and shaped for your future.

This is the story of hard work, the daily toil of a team spread out across distant, almost inaccessible lands, but held together by common values and passion that knows no borders, because it's so perfectly human.

Our Vision.

We aim to be leader in the foundation machinery industry by developing a superior competence on combining Machines, Technologies, Software and Service into unique solutions tailored on customer needs:

Soilmec the Ground Engineering Global Solution Provider

An aerial photograph of a construction site. A large blue crawler crane, labeled 'SR-45 ADV', is positioned on a dirt area next to a large, rectangular concrete foundation. The crane's boom is extended upwards. The foundation is surrounded by scaffolding and construction materials. In the background, there are trees and a fence.

SR-45 ADV. Flexible power with advanced technology.

**Advanced technology and flexibility.
Setting new standards to outperform the
foundation industry.**

SR-45 encapsulates power and technology adaptability in a compact size (less than 43 ton / 94,800 lb).

Its accurate and elaborate design makes SR-45 unique within its rig class.

Easy to operate, SR-45 can complete jobsite duties efficiently with maximum performance.

EVO

EVOLUTION

Functionality:

it can meet specific piling requirements. Designed for bored piles with Kelly bar and CFA.

ADV

ADVANCED

Flexibility:

it can suit different technologies. Designed for bored piles with Kelly bar and CFA; complementary kits allow to perform all piling and soil improvement techniques.

HIT

HIGH TECHNOLOGY

Multifunctionality:

it can perform different technologies. Designed for bored piles with Kelly bar and CFA, it can be easily converted to perform all piling and soil consolidation techniques.

Focus on excellence.

A high power developing 209 kW (280 HP) thanks to the perfect combination of mechanical and hydraulic components.

An effective increase in productivity and better performance thanks to a faster feed/hoist system.

Performance

SR-45 highlights.

A redesigned winch crowd system with an improved extraction force up to 240 kNm (53954 lbf) and a 15 m (49.2 ft) stroke to drive segmental casing of max. diameter 1200 mm (47 in).

Environment starts from safety.

As always, one of the main drivers of our projects is safety.

For this reason, every Soilmec equipment can be purchased with the EN16228 certification package which includes all accessories/devices to ensure the highest level of accessibility and safety in accordance with European standards.

Each machine under goes the most stringent functional and performance tests: all loads are detected and compared with the expected values to guarantee the highest quality in production.

Individuality, quality and technology.

The ergonomic H-cab model embraces the operator. A unique solution in this category (1050 mm /41.6 in wide) in which several accessories facilitate the work of the operator.

Fully adjustable seat, new air conditioner system and sliding door are some of the accessories you can find inside Soilmec cab.

The large windows are designed to improve visibility and brightness improving the general job site safety.

Thank to the package of video cameras with a monitor, has the feeling of full awareness of all the surrounding environment.

comfort & safety

DMS on board

it is the heart of the rig able to monitor all the drilling phases directly from the operator's cab. The system consists of a multilanguage touch screen display fitted on an adjustable arm. It is designed to display in real time all the information related to the drilling phases.

DMS manager 4.0

Soilmec cloud-running application for remote, centralized supervision of the rig fleet and productivity in real time thanks to IoT technology.

DMS PC

Licensed software that displays and processes the data acquired by "DMS On Board".

Your Soilmec rigs and your jobsite... all in your hands.

Total control through the most advanced monitoring system in foundation field.

DMS, Drilling Mate System, is the control center of your job site and Soilmec drilling rigs.

In 2004, Soilmec was the first manufacturer in the world to develop a system for the global control of the drilling rig and of the production processes.

DMS is available in each Soilmec rig and you can have 3 different packages that allow you to have the best possible control of your activities.

Everything under control wherever you are.

Supporting you all the way.

LHR

Crowd Cylinder
System (CCS)

A world of solutions.

Versatility means rapid conversion into all technologies you need. Among the many packages available, SR-45 offers 2 different types of continuous auger conversion: the first in order to have a quick and fast transformation.

In a few steps to transform your kelly bar rig into CFA Quick Change. The second if you need to set up your machine with the deepest CFA in its class 4-lines pull: up to 25 m (82 ft) drilling depth with auger cleaner and sleeve extension.

Low Head Room (LHR) package is also available on SR-45. This kit allows mast minimum heights (8.5 m/28 ft) and at the same time considerable drilling depth (up to 24 m/78,7 ft with friction kelly and mast extension).

Displacement and Turbojet technology can reach the maximum drilling depth of 23 m (75.6 ft);

SR-45 can be set up with or without lattice boom extension to give you the best solution you need.

Anti-slack rope system. The system is managed by the DMS ON BOARD and suggests when to slow down the kelly bar descent to avoid collisions with the bottom of the hole and excessive unwinding of the main rope.

Autorotary. The operator can activate the rotary rotation by an additional pedal in alternative to the usual joystick.

Automatic return to centre hole. Designed to speed up the discharging phase.

Automatic Greasing package. You do not have to worry of when greasing. SR-45 takes care of itself automatically.

CFA /DP technology. Quick and easy package to convert the rig from LDP to CFA/DP.

CFA autodrilling. Automatic device for CFA drilling operations in order to control and optimize the drilling speed.

Casing oscillator. An hydraulic prearrangement to get ready your rig.

Hydraulic device for foldable mast element. It allows to speed up the assembly and set up of your rig.

Versatility

Large Diameter Piles

Cylinder Crowd System

Winch Crowd System

Upgraded
in WCS version

Drawing are not to scale All technical data are purely indicative and subject to change without notice

LDP - Large Diameter Piles - CCS version		
Operating weight Tier 4f - w/o kelly bar	37100 kg*	81791 lb
Max pile diameter along mast	1500 mm	59 in
Max pile diameter w/o lower mast section, tool below mast	3000 mm	118 in
Working radius	3000 - 3400 mm	118 - 133 in
Tail swing radius	3815 mm	150 in
Max pile depth-friction kelly	59,4 m	195 ft
Max pile depth-locking kelly	47,4 m	156 ft

* For Stage V version. For T3 version weight reduced by 500 kg (1102 lb).

LDP - Large Diameter Piles - WCS version		
Operating weight Tier 4f - w/o kelly bar	39000 kg	85979 lb
Max pile diameter along mast	1400 mm	55 in
Max pile diameter w/o lower mast section, tool below mast	3000 mm	118 in
Working radius	3000 - 3400 mm	118 - 133 in
Tail swing radius	3815 mm	150 in
Max pile depth-friction kelly	65 m	213 ft
Max pile depth-locking kelly	51.7 m	170 ft

* For Stage V version. For T3 version weight reduced by 500 kg (1102 lb).

LDP - Large Diameter Piles - Upgraded version		
Operating weight Tier 4f - w/o kelly bar - CCS version	39400 kg	886861 lb
Operating weight Tier 4f - w/o kelly bar - WCS version	41300 kg	91050 lb
Working radius	3000 - 3800 mm	118 - 150 in
Max pile depth	62,7 m	206 ft

- Stroke	14175 mm	740 in
- Crowd force pull (down/up)	240 / 240 kN	53953 / 53953 lbf
- Speed up	22 m/min	71 ft/min
- Speed down	22 m/min	72 ft/min

Engine

Engine	Cummins B6.7	Cummins B 6.7
- Rated output	209 kW @ 2000 rpm	280 HP @ 2000 rpm
- Engine conforms to Exhaust emission Standard	EU Stage V / US EPA Tier 4f	EU Stage V / US EPA Tier 4f
- Fuel tank capacity	380 l	100 US gal
- AD Blue tank capacity	57 l	15 US gal

Available: Engine Tier 3 power rating 201 kW @ 2000 rpm

Hydraulic system

The cleaning of hydraulic oils is electronically monitored and any clogging is show to operator on DMS control system in the cab.

Main pumps flow		
- Main pump flow	2x 214 l/min	2x 57 US gal/min
- Auxiliary pump flow	160 l/min	42 US gal/min
- Hydraulic oil tank	450 l	119 US gal

Winches

Main winch		
- Type	controlled descent	controlled descent
- Line pull (1st layer)	165 kN	37093 lbf
- Rope diameter	24 mm	740 in
- Line speed (max.)	78 m/min	256 ft/min
Auxiliary winch		
- Type	controlled descent	controlled descent
- Line pull (1st layer)	65 kN	14612 lbf
- Rope diameter	18 mm	740 in
- Line speed (max.)	81 m/min	266 ft/min

Noise

Noise		
- Sound pressure level in cab c/w Tier 4f	76 dB(A)	76 dB(A)
- Sound power level c/w Tier 4f	107 dB(A)	109 dB(A)
- Vibration transmitted to the hand-arm system of the machine operator	< 2.5 m/s	< 2.5 m/s
- Vibration transmitted to the whole body of the machine operator	< 0.5 m/s	< 0.5 m/s

Undercarriage

Especially designed for heavy duty applications that require less penetration, better turning capability and less ground disturbance. Maintenance-free crawler track. Hydraulic chain tensioning device.

Undercarriage		
- Type	variable gauge, telescoping sides frames	variable gauge, telescoping sides frames
- Overall width with retracted / extended crawlers*	2550 / 3750 mm	100 / 148 in
- Width of triple grouser track shoes	600 mm	24 in
- Overall length of crawlers	4740 mm	187 in
- Traction force	424 kN	95317 lbf
- Travelling speed	1,9 km/h	1.18 mph

* upgraded undercarriage is available on request

H-cab

Soilmec H-cab. By assessing the specific application and listening properly to the wishes and requirements of the operators, Soilmec provides the optimal operator cab for comfort. Ergonomic seat with air suspension, fully adjustable, lumbar support, air management, as well as lines of sight, quality and safety are standard aspects considered during the design of the right configuration for the cabin.

- Cabin width	1050 mm	3.4 ft
- Sliding door		
- Courtesy lights		
- Air conditioning system and climate control unit		
- Radio player with USB aux port		

Controls

DMS control system, developed and manufactured by Soilmec - is designed to give you a total control over performance, production and all your drilling rigs. In real time all the information relating to the operation work cycles and diagnostics of faults are shown on a multi language touch screen display installed in the cab.

All drilling operations are actuated by two innovative joysticks.

Automatic controls of rotary head and drilling phases are available on request thanks to simple implementation of our DMS system.

Limit switch for rope winding and winches	○	○	○	○	○
Depthmeter for main winch	●	●	●	●	●
Anti-slack system for main winch	○	○	n.a.	n.a.	n.a.
Service winch SW65 model	●	●	●	●	●
Load cell for service winch	○	○	○	○	○
Service rope holder	○	○	○	○	○

	LDP Large Diameter Pile with Kelly bar			CFA Continuous Flight Auger Piles	
	(WCS)	(CCS)	(LHR)	(4-lines pull)	(Quick change)
ROTARY UNIT					
Rotary unit o/w spinoff; Max torque intermitted: 184,8 kNm (136301 lbf*ft)	●	●	●	●	●
Spin off system	●	●	●	●	●
Replaceable drive ribs	●	●	●	●	●
Automatic greasing kit for cradle	○	○	○	○	○
Oil discharge conveying system	○	○	○	○	○
MAST					
Hydraulic folding mast kit	○	○	n.a.	○	○
Pressure automatic control of lifting cylinders	●	●	●	●	●
Automatic greasing package for cathead	○	○	○	○	○
KELLY BAR TECHNOLOGY					
Rotary sleeve with 3 ribs	●	●	●	n.a.	n.a.
Replaceable rotary ribs	●	●	●	n.a.	n.a.
Cardan joint	●	●	●	n.a.	n.a.
Flange for casing driving d.1300 mm (51.1 in)	●	●	●	n.a.	n.a.
Flange for casing driving d.900 mm (34.4 in)	○	○	○	n.a.	n.a.
Spin off discharging system	●	●	●	n.a.	n.a.
Automatic return to the centre hole	○	○	○	n.a.	n.a.
Package to increase the drilling depth up to 62,7 m (205 ft)	○	○	n.a.	n.a.	n.a.
Telescopic mast foot	●	n.a.	n.a.	n.a.	n.a.
CFA TECHNOLOGY					
HD4 sleeve type	n.a.	n.a.	n.a.	○	○
HD5 sleeve type	n.a.	n.a.	n.a.	●	●
HD15 sleeve type	n.a.	n.a.	n.a.	○	○
Sleeve 3 m / 9.0 ft long	n.a.	n.a.	n.a.	○	○
Sleeve 7 m / 19.7 ft long	n.a.	n.a.	n.a.	○	○
Sleeve 8 m / 26.2 ft long	n.a.	n.a.	n.a.	○	○
Package for CFA 21 m / 68.9 ft drilling depth w/o cleaner	n.a.	n.a.	n.a.	●	●
Package for CFA 23.2 m / 76.9 ft drilling depth w/o cleaner	n.a.	n.a.	n.a.	n.a.	○
Package for CFA 26 m / 85.3 ft drilling depth w/o cleaner	n.a.	n.a.	n.a.	○	n.a.
DMS ON BOARD with automatic auger lifting	n.a.	n.a.	n.a.	●	●
Autodrilling package	n.a.	n.a.	n.a.	○	○
Autorotary package	n.a.	n.a.	n.a.	○	○
Automatic greasing kit for CFA cathead	n.a.	n.a.	n.a.	○	○
Additional pull-down winch	n.a.	n.a.	n.a.	○	n.a.
Universal openable lower guide d.1000 mm / 39.4 in	n.a.	n.a.	n.a.	●	●
Hydraulic kit for lower guide	n.a.	n.a.	n.a.	○	○
Auger cleaner star type	n.a.	n.a.	n.a.	○	○
Double roller auger cleaner d.1000 mm / 39.4 in	n.a.	n.a.	n.a.	○	○
Two pressure transducers kit	n.a.	n.a.	n.a.	○	○
Concrete pipe on turret and mast	n.a.	n.a.	n.a.	○	○
Hydraulic prearrangement for VTH-1 vibrator	n.a.	n.a.	n.a.	○	○
Lattice mast extension for DP/TCT and TJ technology	n.a.	n.a.	n.a.	n.a.	○
Additional package for DP/TCT technology: 23 m / 75.5 ft depth with lattice extension	n.a.	n.a.	n.a.	n.a.	○
Additional package for TJ technology: 23 m / 75.5 ft depth with lattice extension	n.a.	n.a.	n.a.	n.a.	○
